

WHERE COMPLEXITY BECOMES CLARITY

ALF-YA is a bespoke advisory firm for moments when the answer is not obvious. We help organizations navigate complex decisions, unlock value, and turn uncertainty into clear direction across Europe, the Middle East, and North Africa.

WHAT WE DO

01 Market Entry & Intelligence

Testing whether a market, opportunity, or partner is worth pursuing, then mapping a route in.

02 Due Diligence & Risk Assessment

Testing counterparties, deals, and markets before you commit.

03 Strategy & Decision Support

Framing the real question and turning ambition into a sequenced, executable path.

04 Commercial, Financial & Investment Advisory

Revealing the economics and risk behind a commercial or capital decision.

05 Business Plans & Consultancy Reports

Strategic, economic, and feasibility reports, written from scratch for your business.

06 Operations, Transformation & Capability Building

Designing the operating model and governance a decision needs to stick.

07 Data, Technology & Intelligent Systems

Bespoke dashboards and systems built around the decisions your team actually makes.

HOW WE WORK

One firm, deployed however the question requires, as a single service or working together end to end. Professional advisers lead every engagement; advanced research, modelling, and intelligent tools deepen the analysis, while judgment, discretion, and accountability remain unmistakably human.

WHERE WE WORK

Europe, the Middle East & North Africa, and beyond

WHO WE SERVE

Executives, boards, family businesses, and investors

HOW WE ENGAGE

Remote, in person, or a combination of both

Bring us the challenge. We'll turn it into a solution.

Tell us what is at stake, why the answer is not obvious, and where you are based. A professional on our team will respond personally and discreetly, usually within one business day.
